

DHL **BREAK BULK EXPRESS**

SAVE COSTS WITH CONSOLIDATED CLEARANCE

Send multiple shipments in one go | Single customs clearance | Direct distribution to end customers

DHL
EXPRESS

GET MORE DONE IN ONE GO

DHL BREAK BULK EXPRESS is an international express door-to-door delivery for bulk shipments clearing customs as a single unit, and delivery to multiple addresses within a single destination country, customs union or free trade block.

Whether you need your goods shipped into one port (e.g. Paris) or multiple ports at one go (e.g. Paris, Berlin and Munich), we can customise a programme to seamlessly meet your break bulk shipping needs, and still save costs with consolidated clearance.

It also allows neutral delivery to your end customer, i.e. where the original shipping invoices can be separately removed/attached depending on your requirements. It delivers your individual shipments with a single processing and payment of customs duties and taxes – nothing could be more hassle-free. Or flexible. To ensure your shipment is always on time, we even get your goods cleared in the air, before the plane lands. And with DHL's excellent processing and track & trace systems, you are in full control at every step.

SINGLE PICK-UP, SINGLE CUSTOMS CLEARANCE, SINGULAR SERVICE

This is how DHL BREAK BULK EXPRESS works:

- Shipment details are prepared individually using our EasyShip system. All the individual waybills will be assigned to a single consolidated master waybill.
- As DHL picks up the shipment, all the individual and master waybill numbers are sent via Electronic Data Interchange (EasyShip System) and are registered in our database.
- Once the consolidated shipment is cleared through destination customs, it is broken down within the DHL gateway hub facility.
- Individual packages are then injected into the destination network and sent to the final consignees.

CONSOLIDATED ADVANTAGE

- On-time delivery through simplified clearance process with door-to-door visibility.
- Save on multiple import/export customs clearance fees, duty and VAT Management costs.
- Better paperwork control with neutral delivery (confidentiality of inbound invoices for your customers).
- Save warehousing costs by customising the delivery details right at the start of the distribution channel (vs storing goods in the local facility to meet specific customer orders).
- Easy access to shipment and invoicing information.
- Better cash flow management.
- Reliable service worldwide.

Contact your Sales Representative for more information.

What you will need:

- Importer of record or fiscal representation in the country of customs clearance
- Compliance with relevant tax laws at country of origin, country of customs clearance and country of ultimate destinations
- DHL EasyShip system or EDI capabilities
